

Sinclair Broadcasting is about to air a blatantly political broadcast in violation of federal election laws. They plan to do this over our publically owned airwaves. This broadcast is an anti-Kerry advertisement disguised as news. It's as if Michael Moore's "9-11" were broadcast like it was fair and unbiased reporting instead of the partisan political stance that it makes.

Sinclair is going to force their stations to air this advertisement and is a prime example of why we need strict rules on corporations owning media outlets. No corporation should have the power to dictate what the public (we own the airwaves) gets to view regarding issues that effects our lives.

Please stop Sinclair broadcasting from violating the fairness they are leagally bound to uphold.

Thank You,  
Mark Matthews
